

## SLEEP APNEA TEAM FORMED

Dr. Payam Shadi and Dr. Joseph Broujerd have formed a partnership in Beverly Hills to diagnose, manage, treat and cure sleep apnea. Some 20-million Americans suffer from sleep apnea, with an estimated 80-percent of sufferers going through life undiagnosed. Sleep apnea occurs when a person stops breathing during sleep, with some patients having transitory interruptions of breathing as much as five times an hour. Contact: Dan Harary, (310) 459-1001.
